ePapers

(Providing all previous year question papers)

Purpose

We are aiming for such a website which will provide all the previous year question papers of all competitive exams as well as job exams so that no one has to wander too much.

Workflow

When the user will visit the website then they will 1st come to **Home Page** and here they will see the different options in navbar. Then the user will click on the **Papers** tab then user will see 4 different categories in which the papers are divided. Then user will choose one of the category. If user would have done login before then directly user will come to the page where all the files will be accessible other after choosing one category the user will come to login page first because login will be compulsory to access/download the file.

And other Pages like: About, Contact will be accessible with or without login.

Technologies used

HTML

It'll help to build a structure of our website.

JAVASCRIPT

It'll help us to create Webpages dynamic.

NODE.js

With help of Node.js we can keep everything in a single JavaScript depository.

CSS

With help of CSS, we can beautify our Webpages and can give a proper style and Layout.

MYSQL

It helps to automate data retrieving and provide great support in PHP MySQL web development.

BOOTSTRAP

It is responsive by design and maintain wide browser compatibility.

Functionality and Webpages

HOME PAGE

Clicking on Home page option will let the user move to home page of the website. Home page will have a Navigation bar having list of options like: Previous Year Question Papers, Daily Quiz, About, Feedback, Contact us. When the user will click on option, Previous Year Question Paper then user will be able to choose which subject related question paper he/she want. And If user want to check his knowledge, then he/she would be able to answer the 5 questions per day.

LOGIN PAGE

Clicking on Login option will let the user move to Login window.

SIGNUP PAGE

Clicking on SignUp option will let the user move to SignUp window.

PAPERS PAGE

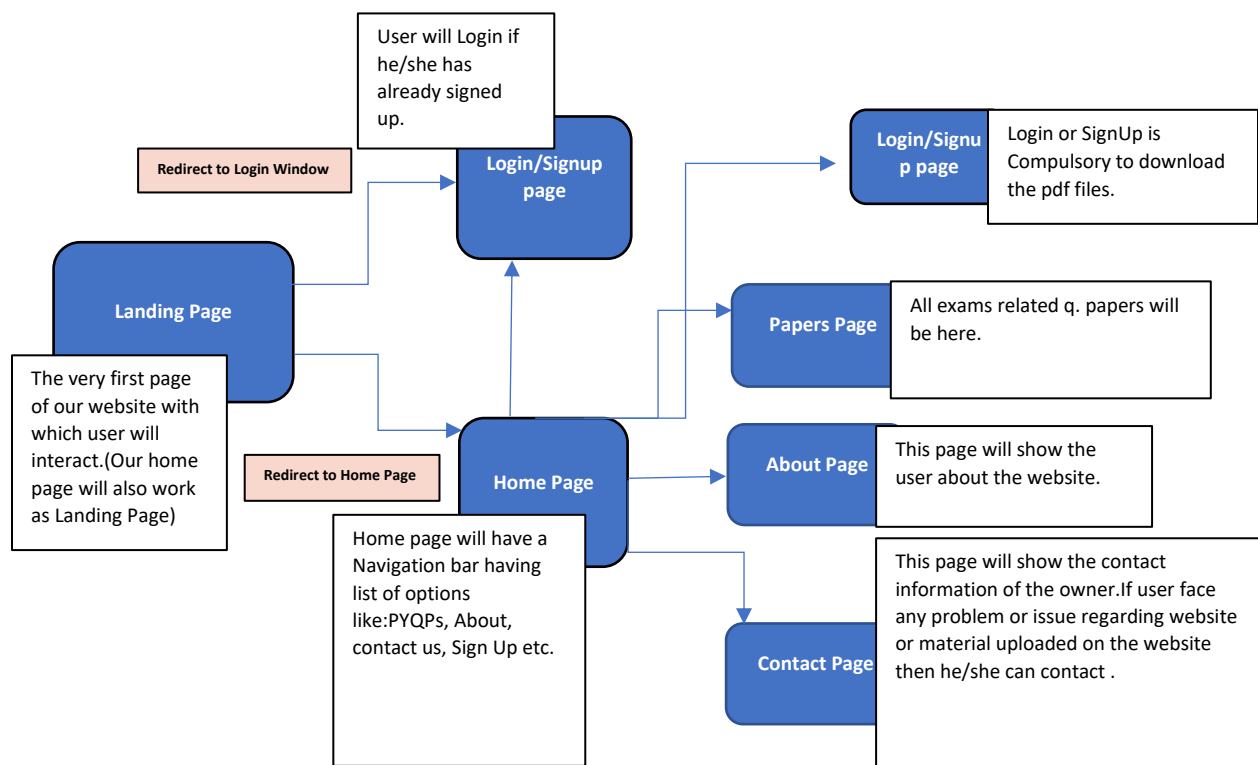

Clicking on that option will let the user move to next page where user will be able to access all the job, competitive, defence or civil-services exams or University Exams related previous year question papers and material like: SSC, RRB, IIT, NEET, NDA, CDAetc.

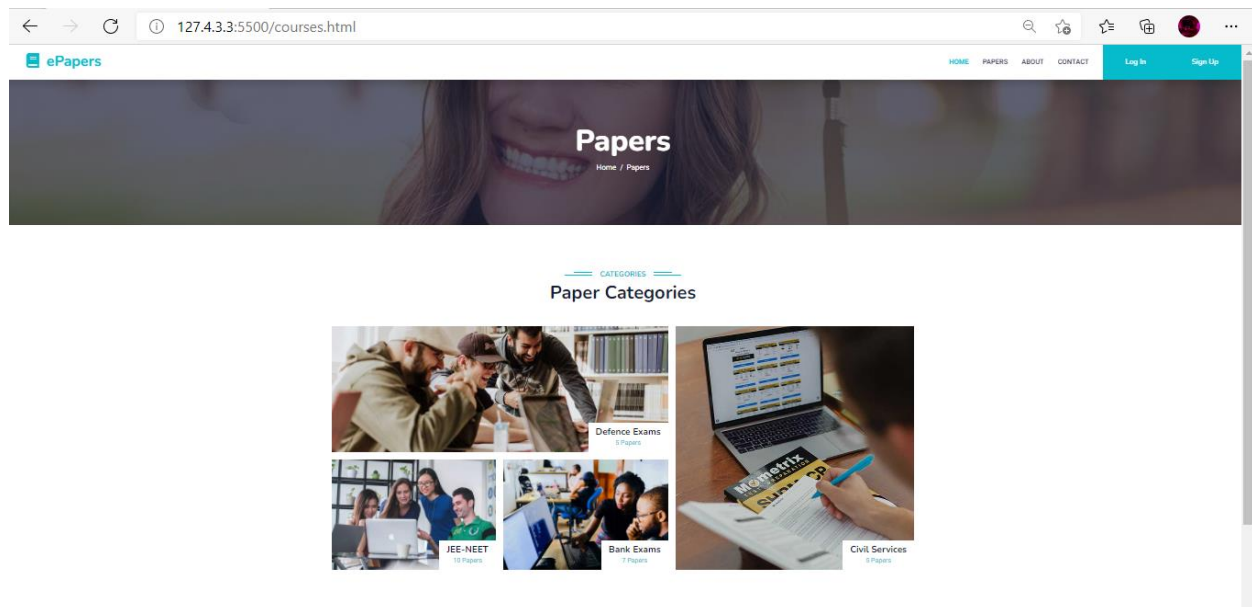

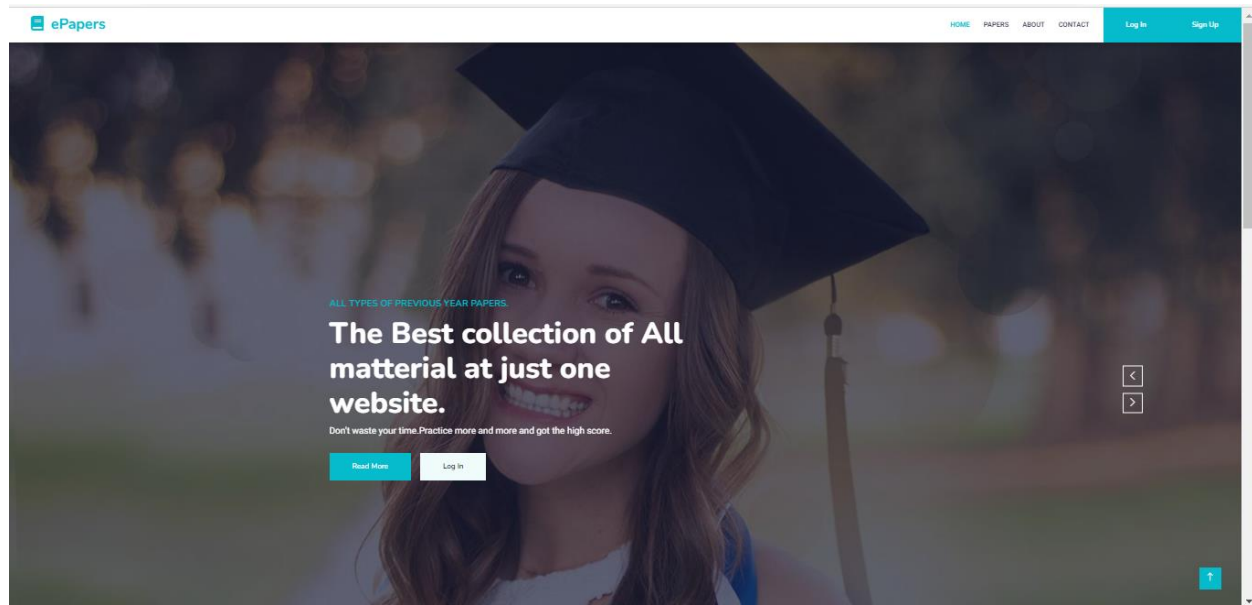

ABOUT PAGE

This page will show about website and about the aim of the website to the user.

CONTACT US PAGE

This page contains contact information. In any case if user face any issue or problem then he/she can contact to the team.
